

IT'S TIME FOR
Stressless[®]

EXPANDING THE FAMILY 2019

It's time to lean back.

2019 brings a new range of supremely comfortable, motorized sofas into the Stressless® range. With new functionality; containing a motor in both the seat and back, the sofas are designed to complement our best-selling Stressless® recliners.

Stressless® Emily

Embrace the moments that matters – and be embraced by Stressless® Emily. Sleek lines and a streamlined silhouette give a clean, modern look vthat will fit any home and style. The contemporary and modern design of the soft cushions ooze und with comfort and invite you to sit down and relax.

Stressless® Emily has an adjustable headrest on all modules. Lower the headrest for a sleek low-back sofa with perfect back support for sitting - or adjust the angle and height of the nheadrest for extra support to your head Sand neck when you want complete relaxation.

Put your feet up on the LongSeat module with fixed back and oleg support - or include the possibility to adjust leg and back support on one or more of the sofa seats.

Stressless® Emily offers a large choice of high-quality leather and fabrics, and the choice between two slim armrests with appealing details in steel or wood. The selection of covers and colours is the same as for other Stressless® recliners and sofas, making it easy to supplement with other Stressless® furniture. The recliners Stressless® Tokyo and Stressless® View both couple up nicely with the Stressless® Emily sofa.
