# The new Stressless® Dining and Desk chair Large

The Stressless® Dining and Desk chair Large offers 7 cm extra seat width, wider backrest and wider legs. Size large will be available on all Stressless® Dining and Desk chair models.

French seams accentuate the more generous appearance of the larger chairs, while added curvature in the seat and back provides a comfortable sit-in feeling.

They welcome you with open arms, ready to embrace and support your whole body through hours filled with delicious food, laughter and great company.

Our large Stressless® Dining and Desk chairs are also available to order with armrests. The arm-rests give the dining chairs a mid-century modern look that makes them stand out both in comfort and design.

The armrests follow the movements of the backrest, offering good support to your elbows in all positions. The armrests are designed to make getting in and out of the chair easy and they will fit nicely under most dining tables.
