

Stressless®

## LOTUS

Modern soft fabric, made from recycled plastic bottles.

Lotus is a soft modern and comfortable fabric made from recycled PET bottles, woven in Europe.

The fibre has a soft surface with a light bouclé appearance and the two-colored weaving gives an exclusive look and feel. The colors in the palette vary from light colors to dark shades, matching well towards our leather collection. Lotus is a good choice if you are looking for a sustainable and strong fabric with a soft touch and easy maintenance.

<b>ABRASION (MARTINDALE)</b> (Hard wear domestic use 25.000)	100.000
<b>PILLING 4</b>	scala 1-5

**Composition:** 92 % GRS certified recycled polyester,  
8 % recycled cotton

**Price group:** 3

### Maintenance and cleaning:

Fabrics made from synthetic fibers such as polyester, polyamide and acryl have a unique wear resistance, long durability and good light fastness. To help the surface retain its appearance, we recommend that you vacuum the furniture regularly and wipe the surface with a damp cloth as needed. Remove spills immediately. If stains and dirt cannot easily be removed with a damp cloth, a cleaning agent and stain remover from the Stressless® Fabric Care Kit may be used. Due to the construction of the Lotus yarn it can snag if sharp objects are used. If snags do occur, carefully push them back into the fabric with a fine but blunt tool. Do not try to pull them out or cut them off.

### Fabrics

We are uncompromising when it comes to fabric quality, and we cooperate with suppliers that manufacture in accordance with strict quality and environmental requirements. If correctly maintained, the fabrics we have selected will help give the furniture a long life. All our upholstery fabrics meet and exceeds the requirements of mobelfakta.no for Hard Wear. To meet Hard Wear requirements, the fabric must pass international tests for durability, light fastness, pilling resistance, fire safety and colour fastness. Tested in accordance with ISO 105-B02 (Light fastness) EN-12947-2, Martindale (wear test), and with ISO 12945-2 (pilling) and ISO 105x12 (rubbing/dye, wet and dry) and EN 1021-1 (Fire safety test).
